Dear Ann,

On behalf of the City of Kissimmee I would like to thank you for all your help with the crowd control railing we installed in our facility.

The railing has been a big benefit to us already and we are not yet open full time. Our customers have commented on how much better the entry and exit area functions. The railing color compliments our front gate and makes us look more professional. The only persons to "complain" were the kids who can no longer jump the line and get in free. Not a problem to me.

The railing is an excellent product, it looks good and I am sure will last for a long time. Even the greatest products on the market are no better than the sales people. Ann, you were great. You helped us with all areas of this project. We appreciate it very much. We look forward to many years of service from our new railing, and many years of business with your company.

Thank you again, come up and see the finished product sometime.

Swimcerely Yours,

A handwritten signature in cursive script that reads "Marie Sheba".
