Dear Robert:

I wanted to take this opportunity to thank you for the fine efforts placed by your firm in supplying the PVC railings and lattice work to Divi Village Phases I and II. As you know we opened Phase I in December of 1991 and have had no complaints to date and must say that as of last week the railings still looked brand new and were functioning as designed.

It is our intent to use your product on Phase III and other projects.

Keep up the great work.

Sincerely,

W. Robert Miller
