Re: Railing Project/ Jade Beach East

Dear Mr. Weiss:

It has now been one year since Safetron finished installing the new safety railings for our five-story condominium at 1750 South Ocean Boulevard in Pompano Beach. We are still receiving daily compliments.

Though you haven't solicited us, I am writing this letter of recommendation as a small token of appreciation for the quality of Safetron's workmanship and quality of the product.

As you know, we visited your company and examined several of your projects before contracting with Safetron. One of the installations was almost ten years old and the railing at that location looked as if it were new.

Also, the unique configuration of our balconies posed problems that your engineering department handled with ease. Your installation crew was both professional and efficient.

Today, our railing still looks as new as it did when it was installed. The design created by your engineering department has given our building a whole new appearance.

If any prospective customer would like to examine a quality safety railing or speak to a past customer of Safetron, do not hesitate to refer him or her to me.

Very truly yours,

TIMOTHY P. BEAVERS
Jade Beach Villas Association
Director
